SEASON'S GREETINGS

Clever Tips To Organize A Small Kitchen

(NC) With over 80 per cent of Canadians living in an urban area, it's not surprising that the micro-condo is a growing trend. But there is a big difference between a small living space and a smart small living space. Here are some tips on how best to organize a tiny kitchen.

Use forgotten areas. For example, the side of your lower cabinets is the perfect spot to hang heavy, clunky items that are annoying to store — like colanders or cutting boards.

Hide kitchen staples. Paper towel is a kitchen essential, but it doesn't have to take up precious real estate on the counter. Fit a sleek paper towel holder to the inside of a cabinet door to give paper towel rolls a new, hidden home.

Pick small appliances. Small is the new big, so opt for appliances that will suit everyday needs. For example, the slender and stylish Keurig K35 coffee maker is a must-have that will deliver on optimizing small counters without compromising on quality coffee.

Use containers for everything. Containers should be a top-of-mind item when maximizing a limited area. Keeping food basics such as flour, pasta or nuts in various size containers will help save on space and organize a small pantry.
