

Simple Spring Ideas Add Seasonal Touches To Your Home

(NC) A new season is here, and that means it's time to give your living spaces an update. Refresh your home with a few strategic elements that can take you from winter to wow.

Surprise with unexpected florals. Flowers during springtime are not exactly a groundbreaking idea, but you can add a twist by incorporating them in creative ways. Think removable wallpaper or a reupholstered statement armchair with pretty, punchy or playful florals. Fresh flowers are never a miss, and you can make them bloom and last longer by placing an ice cube in their water every other day.

Transport outdoor greenery inside. Nothing says spring like new plants, flowers and shrubs. Even if you don't have a backyard, you can give your interiors a touch of the garden with easy-to-maintain plants around your home. Popular varieties this year are coloured plants like the Pink Princess Philodendron, aquatic plants that require less care, and dwarf fruit trees.

Brighten with a pastel palette. Today's trending colours are perfect for the season. Add some millennial pink, soft lavender and cheerful yellow with decorative accessories like pillows and art prints for an easy update. For a

more substantial makeover, try painting an accent wall one of these shades for a pop of colour and keep everything else neutral for a balanced look.

Update your window's look. Sometimes all it takes to energize

a space are new window fashions. Be sure to choose something that lets in plenty of the sun's rays after a long winter, like Pirouette window shadings from Hunter Douglas. Soft horizontal fabric vanes float on a sheer backing,

allowing you to achieve infinite combinations of light control, view-through and privacy. The sheer fabric back panel diffuses sunlight, transforming it into a warm glow while filtering out ultraviolet rays.
