

Bentley Drops The Top On New Continental GT

This is the all-new Bentley Continental GT Convertible. Designed, engineered and hand-crafted in Britain – and representing all Bentley knows about creating the world's most stylish and elegant Grand Tourers – the GT Convertible is the very essence of the luxury brand.

Adrian Hallmark, Chairman and Chief Executive, Bentley Motors, said: "Elegant understatement that forces you to look; engineering excellence you'll take for granted – the extraordinary breadth of capabilities offered by the new Continental GT Convertible is unique and can only be offered by our noble British brand."

We have been building luxury Grand Tourers since the company was founded in 1919 and, as we approach our centenary year, the Continental GT Convertible joins a highly acclaimed range – arguably the strongest and most technologically advanced portfolio of products the world has ever seen in one luxury brand."

Elegant and sculptural exterior styling harmonizes perfectly with an exquisite handcrafted cabin, featuring the highest quality leathers and sustainably sourced veneers.

The tailored convertible roof can be deployed or stowed in just 19 seconds, with the car traveling at speeds of up to 50 km/h. This transforms the Continental GT Convertible from a luxurious coupe into an open-top Grand Tourer at the touch of a button. Seven different fabric hood colors are available, including an authentic tweed finish for the first time.

A newly designed neckwarmer (which is both warmer and quieter than in the previous generation

model), is seamlessly integrated into the heated Comfort Seats, optimising efficiency and airflow around the electrically adjustable headrests.

The styling highlight of the new neckwarmer is a chrome centre vane that stretches the full width of the duct, echoing Bentley's famous 'bullseye' vents.

Combined with a heated steering wheel, seat heaters and new heated armrests, these sophisticated comfort features create a luxurious driving experience in all environments.

The all-new Continental GT Convertible heightens the sensory experience of open-air motoring with exhilarating performance. A powerful 6.0-litre Bentley W12 engine is mated to a dual-clutch eight-speed transmission.

The new powertrain uses the latest engine management technology to produce 635 PS (626 bhp) and 900 Nm (664 lb.ft.) of torque, and accelerate to 100 km/h in 3.8 seconds, on to a top speed of 333 km/h.

The new Continental GT Con-

vertible also showcases major evolutions in Bentley's unique application of technology. An

advanced, fully digital, driver-focused instrument panel and Bentley Rotating Display for the

driver are among the suite of innovations.

The latter features an impressive 12.3" touchscreen housed in a three-sided unit, which revolves from pure veneer to reveal either a touchscreen or three elegant analogue dials – offering customers the option of a digital detox when desired.

Elegant, sophisticated and refined, the all-new Continental GT Convertible is the pinnacle of open-top luxury Grand Touring, and will go on sale next summer. Price? No official prices have been announced, but don't expect too much change back from \$300,000.

CARPROOF Rebrands Itself As CARFAX Canada

LONDON: CARPROOF Corporation, Canada's definitive source of automotive information, is now known as CARFAX Canada.

In spring 2018, the company began the rebranding process to align with CARFAX, the U.S.-based pioneer of vehicle history information-based services,

as both companies are owned by global business information provider IHS Markit. The name change helps CARFAX Canada leverage the strength of the CARFAX brand, empowering more Canadians to buy and sell used cars with greater confidence.

"CARFAX Canada will continue to provide the same robust

history and valuation information that dealers and consumers have come to expect from us," said Shawn Vording, vice president of automotive sales at CARFAX Canada. "We're excited to leverage the CARFAX brand because it better positions us to provide enhanced products and services to Canadians in the future,

building on our extensive history of helping people make informed decisions about used cars."

CARFAX Canada's new website can be found at: www.carfax.ca. Customers with questions should reach out to their CARFAX Canada representative or contact support@carfax.ca.

CARFAX Canada, a unit of

IHS Markit (Nasdaq: INFO), is Canada's definitive source of automotive information, delivering vehicle history, appraisal and valuation.

Drawing on billions of data records from thousands of sources, its products enable used vehicle buyers and sellers to make informed decisions.
