## More Funding for Riverwalk Project

BRAMPTON: Ms. Ruby Sahota, Member of Parliament for Brampton North, has announced that the federal government is further funding the Environmental Assessment for the Downtown Brampton Riverwalk Flood Protection Project.

Flooding is Canada's costliest and most frequent natural disaster. Recognizing this, Ralph Goodale, Minister of Public Safety and Emergency Preparedness has committed \$1.5 million to Brampton under Public Safety Canada's National Disaster Mitigation Program to better plan for and protect against the effects of flooding of the Etobicoke Creek in Downtown Brampton.

This is in addition to an earlier \$300,000 committed through Infrastructure Canada's Clean Water Wastewater Fund.

Sahota said: "Together, this funding will allow Brampton to complete an Environmental Assessment that will propose a preferred alternative to eliminate the risk of flooding.

"Weather-related natural disasters are getting more severe, more frequent, more damaging and more expensive. This is a threat not only to the safety of our city, but to our economic stability."

Through this funding, the Government of Canada is determined to reduce the impacts of flooding from the Etobicoke Creek and build a safer and more resilient Brampton," said MP Sahota.

She emphasized that Ottawa is committed to a disaster relief approach that will allow us to better identify, plan for and reduce the impact of weather-related emergencies and disasters.
