

Indus Community Hosts Multi-Sector Recruitment Fair

MISSISSAUGA: Recruitment Fairs enable job seekers and employers to meet face-to-face, a chance to for job seekers to network with one another and also an opportunity to get career advice from professionals in the

field. Indus Community Services recently held its second fair of this kind at the Burnhamthorpe Community Centre, Mississauga, which was well attended by over 250 prospective candidates and 15 employers from the fields of

Banking, IT, Aviation, Communications and Health-Care. Well know industry leaders such as RBC, BMO, Rogers, Menzies Aviation, Manpower and Staples, to name a few were presented an opportunity to connect with

job seekers and briefly interview them.

"I am a newcomer to Canada. I am really very impressed with the way the Job Fair was organized. I was able to meet six potential employers. RBC and BMO bank

are going to invite me for next steps", said Rajat Raheja.

Brampton, Ryerson Partnership

BRAMPTON: Brampton City Council has approved a motion to solidify the city's existing partnership with Ryerson University by directing staff to establish a Memorandum of Understanding (MoU) to secure the funding and resources required to establish an 'Innovation Hub', and 'Cybersecure Catalyst', led by Ryerson University.

The Exact funding will be considered as part of the city's 2019 budget deliberations, starting on March 18th.

'The Innovation Hub', also known as an incubator, will be located at 41 George Street in downtown Brampton, and will help new startup tech companies build and grow their businesses by connecting them with customers, capital, experts, and a community of entrepreneurs and influencers.

Ryerson's current incubator, called the 'DMZ', is ranked as the #1 university-based incubator in the world.

The new 'Cybersecure Catalyst', also to be built in downtown Brampton, is planned to become Canada's new national centre for cybersecurity.

Once completed, it will provide professional training, research and development, commercial incubation, and public education.

Cybersecurity involves protecting computer systems, networks, and programs from digital attacks, and cybercrimes are expected to result in trillions of dollars in damage globally.

"Though the province put our university funding on hold, this decision to solidify our partnership with Ryerson gives our residents confidence that we are

committed to bringing a university to Brampton, and it will allow Ryerson to position itself for both provincial and federal funding," said Regional Councillor Gurpreet Singh Dhillon, Chair of the Economic Development Committee.

"It is estimated that there will be nearly 1.5 million unfilled cybersecurity jobs by the end of 2019. With Ryerson's proven success in helping tech companies flourish, and Brampton as the cybersecurity capital of Canada, our city will be poised to create jobs and grow innovation."

As of January, Ryerson has expanded its Chang School of Continuing Education into the Brampton City Hall West Tower, where two cybersecurity courses have been launched, and plans are underway to offer full certificate programs.

Cooking For A Cause

BRAMPTON: Recently, the United Achievers Club hosted the 22nd annual Celebrity Chef: Men Who Cook event at Century Gardens Recreation Centre in Brampton. The event saw over 20 chefs from across Ontario whose unique recipes raised funds for William Osler Paediatric Sickle Cell program and the United Achievers Scholarship Program.

This year, Staff Sergeant Greg Amoroso from the Peel Police Road Safety Services participated with his recipe for jerk chicken wings. Seasoned with homemade spices, the wings garnered praise from the judges, attendees and fellow chefs. His first time entry won third place and beat out professional chefs. His medal now hangs proudly in his office.
